

North Attleborough Schools accept donated computer equipment for educational use. Our schools benefit greatly from the generosity of those who make technology available to our students and educators. We are currently seeking cash donations or large hardware donations from companies that are converting to newer technologies and want to donate their three-four year old equipment. If you wish to donate computer equipment, please contact Computer Coordinator Emily Nicodemus at (508) 643-2178 . All donations are tax deductible. [Donation Policy](#)
